

## Job Demand Survey 2007 – Results for Maine

Since 1990, NACCAS has commissioned several Job Demand Surveys, to provide quantitative data on cosmetology careers, earnings potential, and job openings. The most recent survey, completed in May 2007, compiles data from 6,203 salons responding to a national survey.

The 2007 Job Demand Survey results indicate that salons in Maine plan to hire 761 new employees in the next twelve months. The average annual salary for a salon professional in Maine is \$31,453. This amount does not include tips and gratuities. Nationally, the average salon professional’s salary is \$35,973.

Most importantly, 61 percent of Maine salon owners who attempted to hire new employees in 2006 said they were unable to find properly-trained applicants. This means that jobs would be immediately available for salon professionals.

Chart 1 – Percent of anticipated new hires by job category

As of January 2007, there were 19,485 professionals employed at Maine’s 1,855 salons. 62 percent of salons in the state are employer-owned, and 14 percent are booth-rental salons. The other 24 percent are a combination of the two.

53 percent of Maine salons are classified by their owners as full-service salons; 25 percent are listed as haircutting salons. Barbershops make up 3 percent of the total. Nationally, 58 percent of salons are listed as full-service, meaning that Maine has a somewhat higher percentage of specialized establishments.
